SUMMARY

Dynamic Full Stack Developer with 2.5+ years of experience in backend-focused development using PHP, Laravel, MySQL, and modern technologies like React, Node.js, and MongoDB. Proven track record in building scalable web applications, optimizing backend performance, and integrating third-party APIs for enhanced functionality. Passionate about solving technical challenges and delivering robust, user-centric solutions. Eager to contribute to innovative projects in a collaborative and agile environment.

SKILLS

Backend: Node.js, NestJS, PHP, Laravel, REST APIs, Redis
Frontend: HTML, CSS, Bootstrap, JavaScript, React, Next.js, jQuery
Databases: MySQL, MongoDB, Redis
Tools & Platforms : Git, GitHub, Docker, Postman, Linux, AWS
Additional Expertise: API Integration, Authentication Systems, Agile Methodology

PROFESSIONAL EXPERIENCE

Full Stack Developer , TraveliQ Pvt Ltd

March 2024 – Present

- Built scalable APIs using **NestJS** to integrate third-party services, reducing API response times by 25%.
- Migrated the front end to **Next.js**, improving page load times by 30%.
- Optimized **Redis caching**, reducing backend latency by 35%.
- Designed and developed a CRM dashboard using **React** and **Node.js**, streamlining customer interactions.
- Integrated APIs for **IRCTC** Rail, **RedBus**, and **TBO** to enable seamless booking and real-time updates for train, bus, and hotel services.

Backended Developer , Poliyx Pvt Ltd

July 2022 – March 2024

- Developed a multi-user platform using **PHP**, **MySQL**, **Nodejs** and **MongoDB**, processing data for 1,000+ users daily.
 - Implemented RESTful APIs for secure data exchange and efficient backend operations.
 - Integrated APIs from third-party insurance providers to automate data flow and streamline operations.
 - Collaborated with the frontend team to ensure seamless functionality using JavaScript and jQuery.
 - Developed a stock market platform using **PHP**, **Node.js**, and **MongoDB**, processing data for 1,000+ stock market companies.
-

- Assisted in developing RESTful services for large-scale data processing systems. Implemented RESTful APIs for secure data exchange and efficient backend operations.
 - Documented technical specifications for core backend functionalities.
 - Debugged and enhanced existing modules, improving system performance.
-

PROJECTS

- **Policyx.com:** Developed CRM and backend functionalities for an insurance platform with seamless user registration, policy management, and claims processing, integrating third-party APIs for efficient data flow.
 - **Travel IQ:** Built backend systems integrating IRCTC Rail, RedBus, and TBO APIs to enable real-time booking and optimize travel booking workflows.
 - **Stocx.in:** Designed a stock market insights platform processing data for 1,000+ companies, implementing secure data retrieval pipelines using PHP, Node.js, MySQL, and MongoDB.
 - **Fab32dental.com:** Created a robust patient management system with secure data storage and user authentication functionalities, integrating APIs for frontend usability.
 - **foretagevents.com:** Integrated APIs for flight, hotel, and holiday package bookings, creating a streamlined travel booking experience with PHP, MySQL, and Bootstrap.
-

EDUCATION

Master of Computer Application (MCA)

Swami Vivekananda University

April 2020 – May 2022

Bachelor of Science (Mathematics)

Swami Vivekananda University

June 2017 – April 2020

Higher Secondary Education (Science & Mathematics)

S.S.N.Y. College, Araria

May 2015 – April 2017

Secondary Education (Science & Mathematics)

Bijendra Public School, Araria

April 2014

CERTIFICATIONS

- **Web Development Bootcamp:** Web Jyoti Institute (Jan 2022 – Jun 2022)
- **Air India Certification :** Integrated Travel Booking Systems (Completed at Travel IQ)
